ASBESTOS MANAGEMENT PLAN ANNUAL NOTICE OF AVAILABILITY

To Staff, Parents/Guardians, and Students:

This notice serves to fulfill annual notification requirements in accordance with Section 763.93 of the *Asbestos Hazard Emergency Response Act* (AHERA). AHERA requires that all school buildings be visually inspected by accredited inspectors to identify all asbestos-containing building materials (ACBM) that may be present in the school, and to maintain records of all activities related to inspections, removal and maintenance of ACBM. As required under AHERA, Immaculate Heart of Mary School must maintain an Asbestos Management Plan (AMP) and keep the AMP on file at the school, and the School Administrative Unit Office. The AMP is available for review during school hours, Monday through Friday.

For additional information, please contact our Local Educational Agency Designee, Anne Keach, at (603) 271-4555, or Anne.Keach@des.nh.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "C. Brad Grinstead".

ASBESTOS HAZARD EMERGENCY RESPONSE ACT (AHERA)

In compliance with AHERA, the Immaculate Heart of Mary School is required to notify parents, teachers, and all other building occupants that an Asbestos Management Plan (AMP) is available to them in either the office of each school or in the SAU office. The AMP details the location of asbestos in each building and provides a record of inspections, re-inspections, periodic surveillance, and removal of asbestos.

Periodic surveillance of Asbestos Containing Building Material (ACBM) is conducted by district personnel every six months and a thorough re-inspection of ACBM is conducted once every three years by the District's environmental consultant. The most recent inspection was conducted in May 2017.

If you require more detailed information, please call the SAU office at (603) 352-6955 and staff will direct your inquiry to the District's designated person for asbestos information.
